Claims 83-110 have been canceled.

Claims 1-82 remain pending in the application. Of these, claims 1 and 50-82 are currently amended.

Claims 44 and 77 are rejected under 35 U.S.C. 101 and under 35 U.S.C. 112, second paragraph. Claims 1 and 50 have been amended to overcome these rejections.

Claims 50-82 have been amended to more particularly state the subject matter being claimed.

Claims 44 and 77 are rejected under 35 U.S.C. 102(e) as anticipated by Edwards U.S. 5,505,730 (Edwards '730). Applicant respectfully traverses this rejection. The Examiner indicates that independent claim 1 is allowable, but for double patenting rejections. Applicant therefore

believes claim 44, which depends from claim 1, is therefore also allowable, but for the double patenting rejections. The Examiner also indicates that independent claim 50 is allowable, but for the double patenting rejections. Applicant therefore believes claim 77, which depends from claim 50, is therefore also allowable, but for the double patenting rejections.

Claims 1-82 are rejected under the doctrine of obviousness-type double patenting over claims 1-88 of U.S. Patent No. 6,056,744 (the '744 Patent), claims 1-51 of U.S. Patent No. 6,254,598 (the '598 Patent), claims 1-5 of U.S. Patent No. 6,423,058 (the '058 Patent), and claims 1-40 of U.S. Patent No. 6,440,128 (the '128 Patent). Claims 1-82 are provisionally rejected under the doctrine of obviousness-type double patenting over the claims of copending Applications Serial Nos. 09/776,140 (the '140 Application), 09/971,085 (the '085 Application), and 10/084,590, now U.S. Patent No. 6,589,238 (the '238 Patent). Applicant will submit terminal disclaimers based on the '744 Patent, the '598 Patent, the '058 Patent, the '128, and the '238 Patent upon indication of allowable subject matter, but for the double patenting rejections. Applicant respectfully requests that any double patenting issues with respect to the instant Application and the '140 and '085 Applications be addressed upon the issuance of one case and the indication of allowable subject matter in the other case, but for the double patenting rejection.

Respectfully Submitted,
